

# Enterprise Planning: Reporting and Analytics

## State of the market

**46%**

46% of group controllers want to enhance routine financial analysis and reporting capabilities.

**54%**

54% of finance organizations struggle to provide financial data and reports that stakeholders can trust.

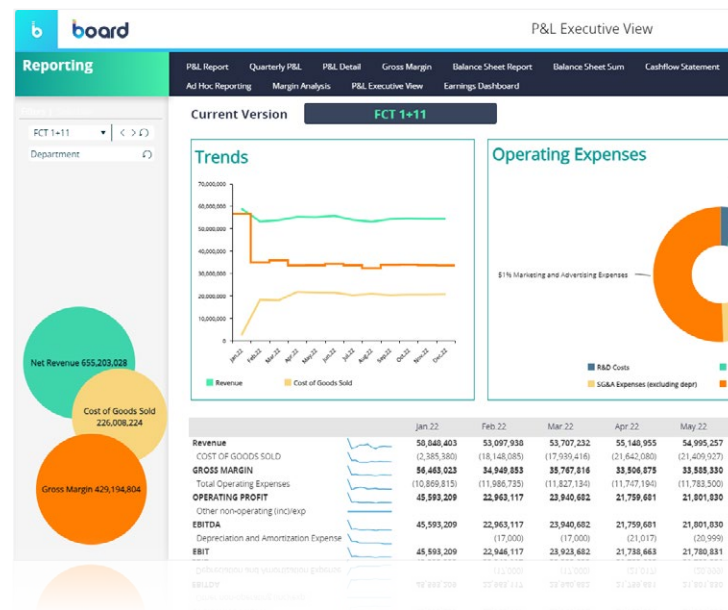

**94%**

94% of boards and investors want a more comprehensive and strategic approach to planning.

## Enter the boardroom with confidence

With the Board Reporting and Analytics Solution, financial planning is no longer an isolated exercise. Finance teams better partner with the business by reporting with confidence on operational and financial performance. Connect your reporting and maintain accuracy and consistency across finance — from planning, budgeting, and forecasting to actuals — to facilitate data-driven conversations with senior stakeholders.

Create repeatable, real-time dashboards and reports. And change assumptions, scenarios, or KPIs in real time. Leverage advanced analytics and AI to build your competitive edge. By bringing together planning, analysis, and reporting into one platform, Board empowers your people to accelerate decisions and react at speed to market changes, supply chain disruptions, or shifts in demand.

## Key benefits

Accurate,  
transparent data

Faster time  
to insights

Expanded finance  
partnering

# A comprehensive range of capabilities:

## Multiple sources, one version of the truth

Connect across a myriad of data systems to present financial and non-financial information in real time.

## Self-service capabilities and ease of use

Board offers an intuitive interface where users can build reports that reflect corporate processes and branding.

## Seamless data navigation and flexibility

Go beyond BI tools by building reports that can pivot large volumes of data in any shape to uncover trends and outliers.

## Microsoft 365 integration

Stay prepared for important meetings with PowerPoint, Word, or Excel reports that are ready to share with external stakeholders in a matter of seconds.

## Drive financial performance

Articulate financial impacts of strategic plans by sharing data and insights with key stakeholders and decision-makers.

## In-context collaboration

Have your data tell the story of your financial performance through transparent reporting that can be shared across the business, fast.

## Trusted by leading enterprises
