

People planning
at a click

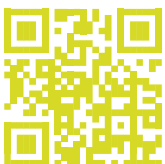

BDG ONE | PEOPLE

Tedious data preparation, protracted coordination processes and unreliable FTE and cost forecasts – for many HR teams, workforce planning is a real burden. Personnel movements and salary components are very complex, and HR data for planning is stored in different systems or spreadsheets.

bdg ONE | People was developed to make planning a transparent, efficient and fast process that also provides valuable insights and facilitates cooperation with Finance & Controlling.

bdg ONE | People reports key HR metrics along the employee lifecycle, provides valuable insights through a powerful analytics function and offers integrated best-in-class planning and forecasting approaches.

Expand your system landscape and create seamless integration of your HR department with Finance, Controlling and other departments with bdg ONE | People.
