

Board is the Enterprise Planning Platform.

We deliver unified financial and operational planning for the world's best brands—turning complex data into confident decisions with AI, analytics, and customizable solutions for enterprise-grade challenges.

Trusted by thousands of industry leaders.

“Board allows us to consolidate in a split-second... 48 manufacturing plants and 85 warehouses with a single click!”
Senior Manager Planning & Performance Management

“Board is our full suite of state-of-the-art analytics services and at the same time a scalable and flexible planning solution that responds effectively to all of our technical and functional requirements.”
CFO

“Board has experience working with many companies — and we’ve benefitted from that extensively.”
Controlling Manager

Enterprise-ready AI built on Microsoft Azure.

Board integrates seamlessly with the Microsoft Azure stack providing AI-powered predictive modeling, agentic AI capabilities, and global real-time economic signals.

Global partner network specializing in Enterprise Performance Management (EPM).

Our vast global partner network includes leading global advisory and consulting firms, system integrators, and specialty consulting experts. Together, we ensure unparalleled customer satisfaction and success.

Planning that unifies the entire enterprise.
